MINING, OIL & GAS OPERATIONS

Energy security for harsh environments

REVOLT ENERGY

OFF-GRID MINING	OIL FIELD MONITORING	SOLAR-POWERED WATER INJECTION	EMERGENCY BACKUP REMOTE DRILLING

MINING, OIL & GAS OPERATIONS

Mining, oil and gas sites face high energy costs and reliability issues in remote desert operations where the grid is absent.

Heavy-duty $LiFePO_4$ battery systems for autonomous rigs, remote monitoring and off-grid microgrids that combine solar, wind and backup generators.

ADVANTAGES

- Less diesel runtime and lower emissions
- Designed for heat, dust and sand
- Low-maintenance operation
- Smart BMS/EMS integration for predictive monitoring

RECOMMENDED REVOLT SOLUTIONS

E-Container™ · Mobile Energy Storage · Backup generator pack

Secure your operations with energy built for the desert.

ReVolt Energy

Advanced Energy Storage & Power Solutions · Smart • Scalable • Secure
